SUMMARY

Enthusiastic UI/UX Designer and Front-End Developer focused on building a strong and creative career in the digital design field. Skilled in designing modern mobile and web interfaces using Figma and Framer, and developing responsive websites with HTML, CSS, and JavaScript. Possesses basic knowledge of Python and ReactJS, with a strong desire to learn, grow, and contribute to impactful user-centered projects.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering(ANNA UNIVERSITY)

2020-2024

PUBLICATION

International Journal of Innovative Research in Computer and Communication Engineering (IJIRCCE)

- Publication of my Research entitled "Autism Spectrum Disorder Detection using Deep Neural Network"
Volume 12, Issue4, April2024

PROJECT

MINI PROJECT

Emotional based music player

This project is based on the human emotions to change the music

MAIN PROJECT

Autism Spectrum Disorder Detection using Deep Neural Network

This project is based on autism disorder detection using MRI scan without consulting a doctor. In this case, we can directly detect whether the person is autism positive or negative.

WEBSITE

Buy Green Harvest Products

<https://aarthiisri.github.io/Buy-Green-Harvest-products/>

Green Harvest offers a wide range of organic gardening supplies, from seeds to tools, to help gardeners grow sustainably. Their products support eco-friendly gardening practices for a healthier planet.

Designing Website Using FIGMA

PLANTO offers a modern and user-friendly experience, designed to provide seamless navigation. Its clean interface ensures that users can easily access and engage with content effortlessly.
